LONG BALLOON FLIGHT IS AGAIN POSTPONED

FRIEDERICHSHAFEN. July 15.—The damage caused yesterday to the morn-moth airship by a defect in the steering gear was fully repaired, and Count Zeppelin dacided to start on his twenty-four-hour flight this morning. Responding to the maneuvers, the bow of the ship rose in the air and the motors were started. Then, before sufficient way had been acquired to permit of proper steering, a gust of wind blew the airship against the side of the floating shed. The side steering gear of the ship hit the walls of the shed, twenty yards of the outer rubber-covered silk covering was forn away, and the side propeller was bent, it was eventually freed from this position and towed back to the shed. An inspection of the damage was made, after which it was announced that it would take a week to effect repairs. Consequently, the long FRIEDERICHSHAFEN, July 16.-The fect repairs. Consequently, the long flight will have to be postponed for at least seven days.
